Supervision

Students in Biarritz will be free to experience and explore things with their friends on and off campus, but with daily checks from our supervisors to provide a good mix of supervision and personal freedom. Daily checks include: wake-up, breakfast, class check, assembly, programme check with sign-up lists, dinner, TTT and night check.

Participation in the activity programme is voluntary. You can choose between taking part in the offered programme activities or exploring the town with your friends in the afternoon and the evening after dinner until 22:30 pm (at least 2 students together), after informing our staff members and signing out. You will not be allowed to leave the campus or the Host Family without supervision after 22:30 pm when all students should be in their accommodation, but there might be special supervised programme activities off the campus organised for you. The supervision ratio for this age group is usually 1:15, i.e. one staff member per 15 students.

The activity programme is bilingual (French and English). There are activities in French and English in the afternoons and bilingual activities in the evening. During the excursions, there will be different groups per language or a bilingual guided tour (in case of smaller group sizes on site).

If you are accommodated in the Residence you inform your supervisor at the compulsory assembly what you are going to do in the afternoon. The same happens at the TTT around dinner time for the evening event.

Homestay students have their TTT around lunchtime where they need to inform the supervisors about their plans for the day (afternoon and evening). In the evenings the students can either take part in the activity programme, explore by themselves in pairs up to 22:30 pm or stay in their private homes. The families are in contact with the team and let them know if a student is missing.

You will be part of a TTT group of up to 20 students. Your TTT supervisor will always know in which programme activities you take place and where you are. Our supervisors may restrict the level of freedom if necessary, for example if you don't respect the centre rules!

Important information for groups: If students travel in a closed group, the accompanying group leader is responsible for their supervision in line with our supervision policies and procedures and working alongside our team. The group leader will be fully integrated into our teams and all the rules and regulations and policies will be communicated to them prior to arrival in our centres. Our teams do very much appreciate any active support from the group leaders on site.

Covid-19 secure notes

We are experienced since summer 2020 as we have been successfully running a summer camp in Hohensolms (Germany) under Covid-19 rules and safety measures.

The health and safety of our students, staff and visitors is our main priority. We will be strictly following all the recommendations and guidance issued by health authorities at our centres.

At that point of the year, we can't precisely describe how each centre will work as we don't know exactly what will be implemented by French government and local authorities in Biarritz.

Safety measures could for example include: wearing masks in the common areas of the youth hostel, wearing masks in public transport and/or on busses during our excursions, keeping the minimum distance in classrooms and during activities. The necessary measures will be defined prior to the students' arrival and are subject to changes if needed.

Host families have all been trained and sent guidance notes in advance of their students' arrival regarding our increased expectations around cleanliness and hygiene. Hosts will treat students as full members of their household and social distancing will not be necessary inside the home.

Trip destinations might not all be available depending on the current situation in the different trip destinations during the summer. If any trip destination has too many cases of Covid-19 we will change the trip to another destination to protect the health of our students and staff.

Updated information can be found on our website. Individual clients will receive all the necessary information with their travel documents 7-10 days prior to arrival. For closed groups we will inform the agents / group leader prior to the group's arrival to the destination.

Scan Me

By scanning the QR code you can discover a video about our summer camp in Hohensolms with Covid-19 safety measures in place. Students kept the needed distance but were divided in small groups with one member of staff responsible for them. Within these smaller groups they did not have to keep the distance. Taking busses for trips always happened with masks on. Hand sanitizer was available everywhere and anytime. We were strictly following the rules and regulations of the local health authorities at all times.

We received a throughout positive feedback. Many students even extended their stay with us as they and their parents felt very safe and at the same time the students were enjoying their holidays.
